## ITG to partner with Dynamic Quest

The Business Journal of the Greater Triad Area - 11:13 AM EDT Wednesday, July 18, 2007

International Textile Group has partnered with Dynamic Quest for its corporate servers and data management needs, according to an announcement from Dynamic Quest.

The Greensboro-based business solutions firm said it will provide e-mail services, hardware, backups and helpdesk support, among other services, for International Textile, the Greensboro company formed by the restructuring of Burlington Industries and Cone Mills.

Dynamic Quest, which is located on Koger Boulevard near Wendover Avenue, will host International Textile's servers in its new data center. The company is planning an open house in September to formally unveil the new facility.
