Dynamic Quest takes the Cisco Partnership to the Next Level with the Premier Certification

Greensboro, NC – April 7, 2009 -- Dynamic Quest, a business solutions provider focusing on Technology, Marketing, and Business Processes, successfully completes the Cisco Premier Certification, which is one of the most highly awarded programs in the networking industry, continuing to set the industry standards.

Cisco Premier Specialization expands Dynamic Quest's technical competency in the integration of routing and switching, wireless LANs, VoIP communication, and security technologies. This certification also recognizes Dynamic Quest for demonstrating a measurably high level of customer satisfaction. "This Certification expands the technical skills of our team, but more importantly, it allows Dynamic Quest to help our clients accelerate growth and profitability, gain and keep a competitive advantage, and stay in front of the latest technology", said Javier Gomez, CEO of Dynamic Quest. With proven in-depth technology skills and customer success in selling, deploying, and providing services for Cisco solutions, Dynamic Quest reinforces their role as a trusted technology advisor.

The Program has four levels of certification, each with specific requirements in the following areas: sales, technical, and lifecycle services training and exams. In order to become Cisco Premier Certified, Dynamic Quest's IT services and support capabilities were assessed by Cisco to ensure the highest quality throughout the project lifecycle, including the following phases: preparing, planning, designing, implementing, operating, and optimizing.

Dynamic Quest, founded and based in Greensboro, NC is one company providing multiple solutions in the areas of technology, marketing and business processes. The company offers IT services, Data Center hosting, custom development, help desk services and many other solutions for businesses across different industries.
