

FOR IMMEDIATE RELEASE  
December 2, 2009

### **3<sup>rd</sup> ANNUAL QUEST FOR HOPE 5K RUN / 1Mile WALK, Presented by Dynamic Quest**

Greensboro – December 2, 2009 – Dynamic Quest, a local Business Solutions Provider, continues to support its community by organizing the 3<sup>rd</sup> annual Quest for Hope Event.

“This year we have been particularly fortunate in receiving a number of applications and several suitable candidates. With such a promising field of candidates, choosing a single recipient for our event is always a difficult decision”, said Kelly Gomez, Marketing Manager at Dynamic Quest. Our 2010 mission is to raise funds for Friends for an Earlier Breast Cancer Test and support this organization in providing the grants for research. Finding a biological earlier detection test for breast cancer is critical, and Dynamic Quest is very excited about joining this mission.

“We believe our 5K Race/1 Mile walk event is an outstanding forum to raise important research dollars and we are seeking the support of individuals and businesses in the community to help us make this possible”, said Javier Gomez, CEO at Dynamic Quest. Please consider doing your part and join us as a sponsor or a participant. The event date and other information will be available at: <http://questforhope.dynamicquest.com>.

Recognizing the needs of our community, Dynamic Quest has established Quest for Hope as an annual event to raise funds, hope, and awareness for those in need. Dynamic Quest, founded and based in Greensboro, is one company providing multiple solutions in the areas of Data Center Services, IT services, Helpdesk Services, Custom Software Development, and Marketing Services. (<http://www.dynamicquest.com>)

**Friends for an Earlier Breast Cancer Test**, is the only 501 (c) 3 non-profit organization in the United States focused exclusively on funding research to find a biological earlier detection test for breast cancer. The organization was established to generate, collect, protect, and distribute money for this one purpose. (<http://earlier.org>)
